

WHITNEY AUTO LOCKING TIPPING SKIP

WHITNEY

The Whitney Auto Tipping and Auto Locking Forklift Tipping Skip is built with ultimate driver safety in mind.

With no driver intervention required to secure the tipping skip to forklift truck or for the tipping process. Driver simply fully engages the forks through the fork pockets, then lifts the skip up off the ground to engage the automatic fork lock.

To tip the contents just lower the tipping skip gently onto the receiving container to disengage the mechanism. Once tipped reverse tilt will enable the skip to reset.

Model	Mat mm	Length mm	Width mm	Height mm	Lip Height mm	Tare weight
