KERB GRABS

The **FTZ-uni** is suitable for handling concrete components, prefabricated concrete wall units, steps, kerbs, stones, natural stones in conjunction with a lifting device and is also suitable for lifting Kassel Kerb Stones.

It comes with a lifting eye for attaching to crane hook, automatic switch over from “full” to “empty”, with rubber grippers. The opening width can be easily adjusted by releasing the spring loaded pins.

The **TSZ-uni** is suitable for handling steps, kerb stones, L-stones, etc in conjunction with a lifting device.

It comes with a lifting eye for attaching to crane hook, has an option for either automatic or manual switch over from “full” to “empty”, with rubber grippers. The opening width can be easily adjusted by releasing the spring loaded pins.

The **SQZ Rock-clamp** is designed to handle irregular shaped rocks via the pivoting grippers with steel fingers.

The **SQZ** can also be fitted with rubber grippers to enable it to handle concrete products such as Trief kerbs.

Type	Dimensions in mm				Unladen weight (Kg)
	Opening width	Inside Height	Gripper Length	Carrying capacity	
FTZ-uni	0-775	255	420	1500	85
TSZ-uni	50-570	185	350	500	29
SQZ	200-880	300	500	1000	98
